## Fairview Specialty Pharmacy Cystic Fibrosis Program

Fairview Specialty Pharmacy's Cystic Fibrosis Program is designed to help you take your medications successfully, making it as convenient and easy as possible.

As part of the team of clinicians who provide care for cystic fibrosis patients at the M Health Fairview University of Minnesota Medical Center, we are in a unique position to understand and meet your needs, and to link you to ongoing cystic fibrosis research here.

### **PERSONAL PHARMACIST**

Our pharmacists, unequaled in cystic fibrosis expertise, are committed to helping patients take medications correctly to achieve the best outcomes and prevent potential medication problems. They are available at any time to answer your medication questions.

### **MONITORING OF MEDICATION SUPPLY**

We will monitor your medication supply so you don't have to worry about running out. We will call every month, about a week before you will need your medications, to find out what you need to re-order and assist you with any questions or concerns. Your medicines are always in stock and will be shipped to arrive when you need them.

## **INSURANCE BILLING**

Our Patient Financial Advocates will handle and submit your insurance paperwork for you. Billing cystic fibrosis medications can be complicated, but our expertise helps you get the most benefit from your insurance and health care dollar.

## **FREE SHIPMENT**

We ship your medications at no extra charge to the address of your choice, whether it be your home, place of employment, or travel destination.

**We provide all of these services to our patients at no additional charge.**
