

Cystic Fibrosis Comprehensive Care and Medication Management

Adult and Pediatric Patients

Fairview Specialty Pharmacy is the leader in providing whole patient care with our all-encompassing services that are quick, easy, and reliable for even the most complex or specialized patients' needs. We function as part of your patient's care team to relieve you of time-consuming and unnecessary work while ensuring that your patients quickly and accurately receive the medications and support they deserve.

Access & Adherence

We are **one of six pharmacies with access to Vertex** drugs and the only hospital-based Specialty Pharmacy.

Highest ranking Vertex adherence scores

#1 for adherence in 41 out of 52 weeks per year and #2 for the remaining 11 weeks of 2022.

Licensed shipping to all 50 states.

Expertise

Fairview Specialty Pharmacy was a consulting pharmacy in developing **URAC's new Rare Disease Pharmacy Center of Excellence accreditation** and one of the first to receive the distinction.

Pulmonary disease-specific expertise

Therapy-management clinicians and liaisons are specialized and trained for cystic fibrosis and related pulmonary conditions.

Diabetes Care team

Our diabetes care team is specialized and trained in CGMs and pumps and has access to all ordering needs.

Specialized disease-specific Patient Financial Advocates

Fairview Specialty Pharmacy understands that time is best spent on patients, not paperwork. Our pulmonary disease trained PFAs take care of the process so your patients can begin therapy sooner.

All-encompassing Medication and Supply Ordering

One stop for all medications

Patients can fill both their mail order and specialty medications, as well as order diabetes supplies such as CGMs and pumps via text or phone call.

Free supplies included

Fairview Specialty Pharmacy ships free supplies such as sterilized water and syringes for nebulized medications that need to be reconstituted and/or drawn up from a vial.
