TRANSPLANT PROGRAM

Transplant Insurance Billing

Insurance Plans

Fairview Specialty Pharmacy accepts most insurance plans, Medicare Part B and D and state medical assistance. We will apply to become a provider if we do not yet accept your plan. If you have a second or third insurance policy, we may be able to bill them.

Medicare and Secondary Insurance

If you have Medicare, we will bill them for you. Medicare Part B will cover 80% of your immunosuppressants. These might include:

- Gengraf/Neoral (cyclosporine)
- Prograf/Astagraf XL/Envarsus XR (tacrolimus)
- Deltasone (prednisone)
- Myfortic (mycophenolic acid)
- CellCept (mycophenolate)
- Rapamune (sirolimus)
- Imuran (azathioprine)
- Zortress (everolimus)

After billing Medicare Part B, we will charge the rest of the costs to a second insurance plan, if allowed. Some plans will only take claims directly from you (the beneficiary).

If your plan will accept claims from us:

- We will let you know at 90 and 120 days if the insurer is not paying your claims.
- After 120 days, if the insurer does not respond, **you will need to make the 20% co-payment.** We will tell you how to submit these claims. If you have a change in your insurance coverage, you must tell us right away.

For Questions about Billing

If you have any questions about billing or your insurance coverage, please call your Patient Financial Advocate.
