Emergencies

EMERGENCY PHONE NUMBERS

For all life-threatening emergencies, call 911.
Fairview Specialty Pharmacy is not a 911 service.

For police, ambulance, and fire, call 911.

For Poison Control, call 800-222-1222.

For information and supplies during an emergency, call Fairview Specialty Pharmacy 1-800-595-7140.

What to do in an emergency

1. During a disaster, your personal safety is our first concern. Let us know if you lose power, supplies, or medicines. We'll tell you how to manage your medications. If you can't reach us during an emergency, call a local emergency room for help.
2. Tell us your new location if you need to leave your home and let us know when you are able to return home.
3. Tell local power supply companies about power failures.
4. Use other sources of light like flashlights or candles. CAUTION: Do not use candles or matches until you have checked for gas leaks.
5. Leave your home, if needed, to avoid getting hurt. If you need medicine during a disaster, call Fairview Specialty Pharmacy. The pharmacy can work with you to find the best option to get you your medication.

How to prepare for an emergency

The following tips will help you and your family be prepared for all types of disasters*:

1. Get details about emergencies like tornadoes or blizzards before they happen.
2. Always follow guidelines and orders given by local authorities.
3. If possible, go to the nearest shelter when told by local authorities.
4. Store a transistor radio, flashlights, pipe wrench (for gas, water, and shut-off valves), plenty of batteries, blankets, fuel wood or heating oil, food, and bottled water to be prepared in case of an emergency. Use a backup generator whenever available.
