- Monday-Friday 8 a.m. to 5 p.m. CST
- On call pharmacists 24/7 for emergencies

Information regarding Medicare Part B coverage
Medicare coverage requires regular doctor's visits and careful clinic documentation for certain specialty medications and diabetes related supplies. Our diabetes care specialists will work with your provider to obtain the additional documentation that is required by Medicare Part B.

To ensure the timely extension of your Medicare coverage, it is important to maintain the following with your provider and on your prescriptions:

- You must have an office visit every six months for continuous glucose monitors and every three months for insulin pump supplies
- Office visit notes must be sent to the pharmacy each time AND refer to diabetes and your insulin regimen
- New prescriptions must be prescribed on or after the office visit date by the same provider that you saw in your visit
- Directions on the prescription need to be specific and cannot say "use as directed"

Please call or text us if you or your provider have any questions.

WOULD YOU LIKE TO TALK TO A PHARMACIST?

If you have any questions about your medicines, the integrity of the product shipped or feel this package has been tampered with, call 612-672-5205 or 1-800-595-7140 to speak with a pharmacist.
Our pharmacists are available:

- Monday-Friday 8 a.m. to 5 p.m. CST
- On-call after hours

Warning: some medications will chemically degrade if you do not store them properly. Contact us if you have any questions about how to store your medications.

Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

GENERIC SUBSTITUTION POLICY

Fairview Pharmacy will substitute whenever possible an FDA-approved, less expensive generic product, which is therapeutically equivalent to and safely interchangeable with the one prescribed by your doctor.

Controlled substance prescriptions (Schedules II-V, butalbital and gabapentin) dispensed at this pharmacy are reported to the Minnesota Prescription Monitoring Program as required by Minnesota Statutes Section 152.126 and may be used for program administration purposes. We also report to any other state that requires controlled substance reporting for its residents.
